

MainProgram:

```
public class LockedMeMain {  
    public static void main(String[] args) {  
  
        // Create "main" folder if not present in current folder structure  
        FileOperations.createMainFolderIfNotPresent("main");  
  
        MenuOptions.printWelcomeScreen("LockedMe", "Padmaja Yadav");  
  
        HandleOptions.handleWelcomeScreenInput();  
    }  
}
```
